CLOUD PLOUT, SCHEDULING, LIVE PROGRAMMING, AND MORE

The easiest way to manage and launch your 24/7 live digital channel for live broadcasting over the air, on cable, OTT, apps, social media, and websites.

No Expensive Infrastructure

Always on 24/7

One click away to a worldwide audience

Monitored and monetized

Pay as you go

Channel evolves as you do

Instantly integrate with all TVU solutions

Some single click playout features include:

Break-in live video or switch programs instantly at any time

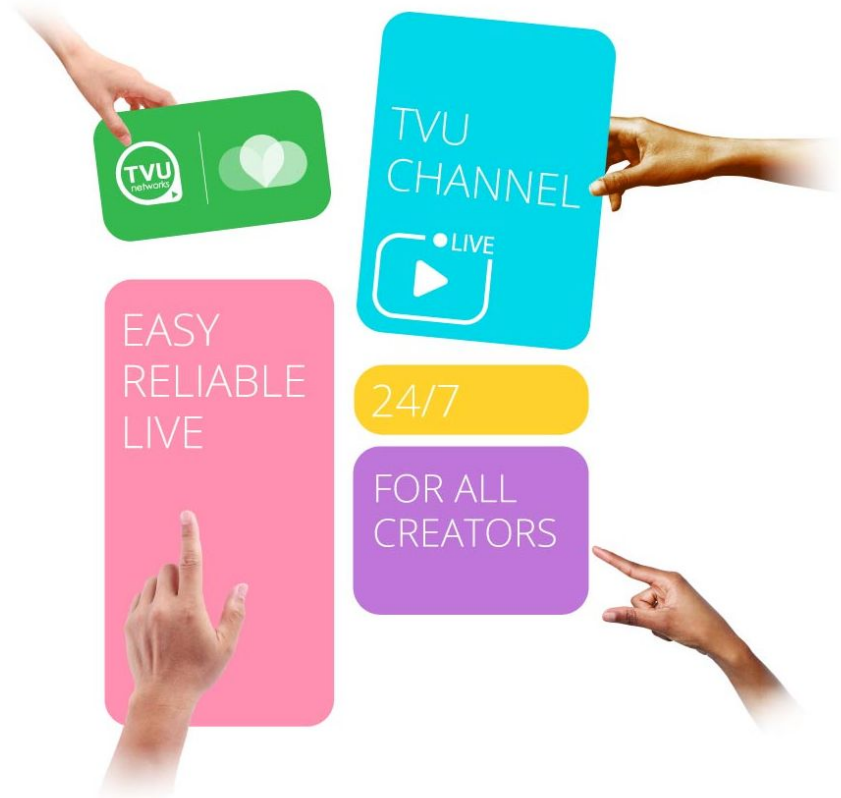

Breaking news auto-recording

Schedule or manually insert graphic overlays

Output Electronic Program Guides

Instant on or scheduled Ticker/Crawl

Program interrupt for instant changes

TVU Channel - Easier than Ever

Easy for one person to operate and manage

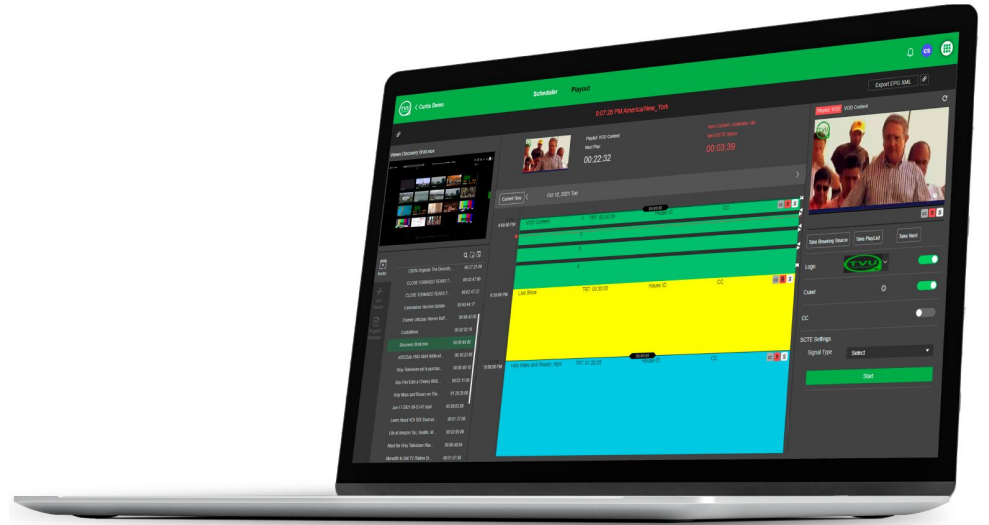

Integrates effortlessly with all TVU solutions

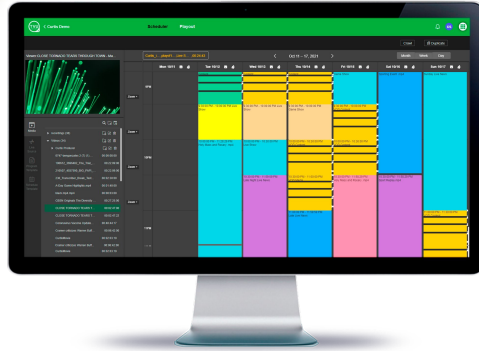

Built for live production and program playout

Accessible by multiple users at the same time

Syndicate to multiple platforms at once

Social media single click connection

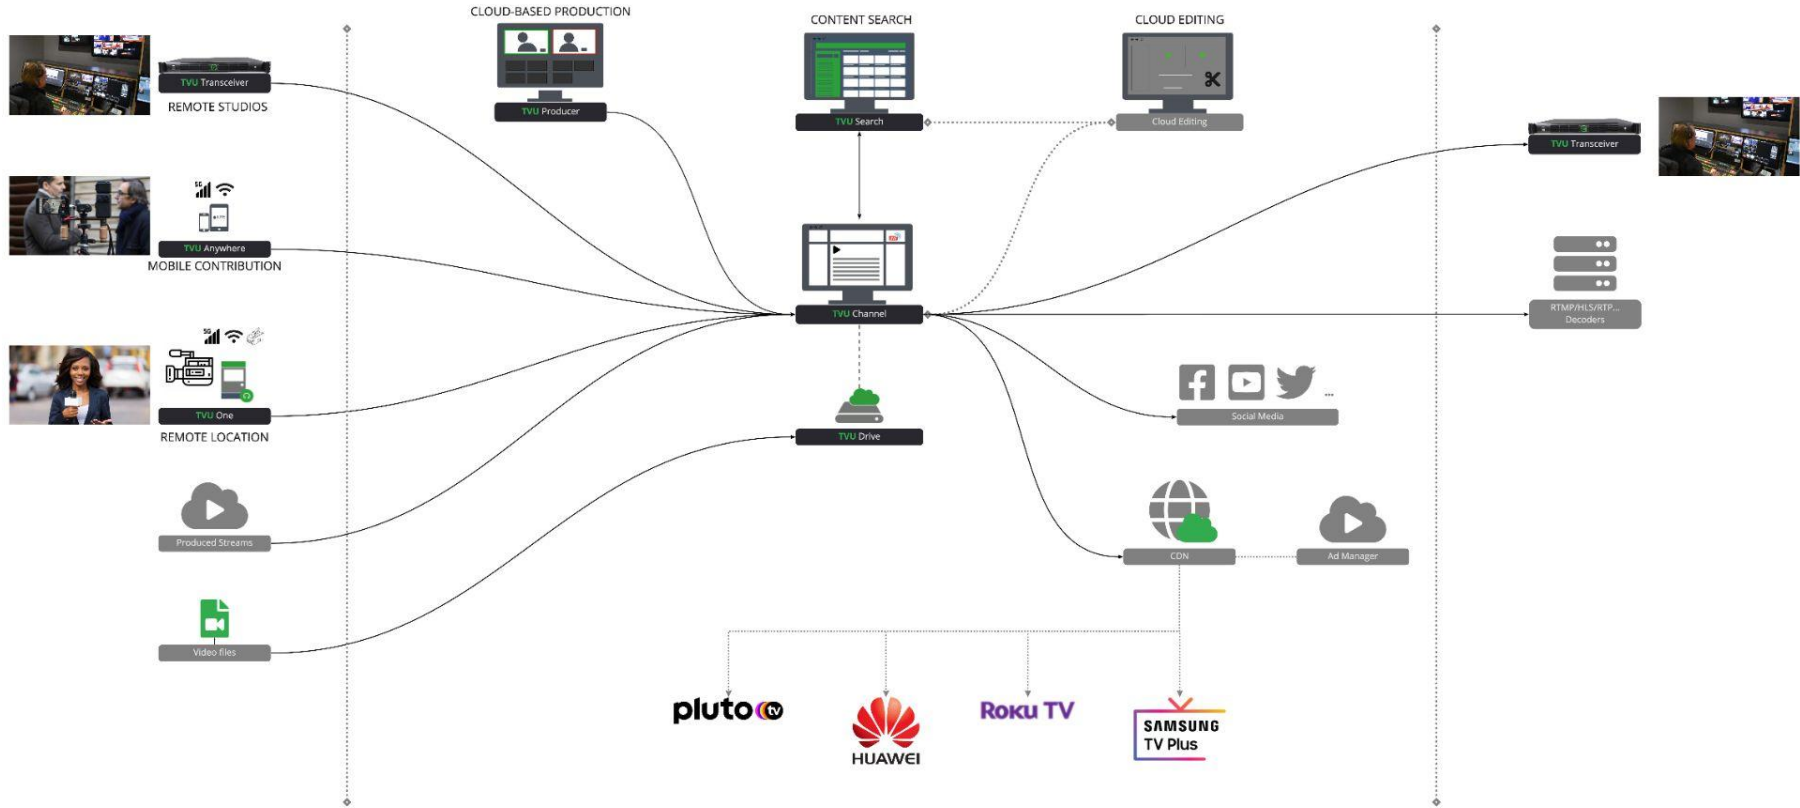

Cloud-native backup channel for broadcaster's existing on-premise channel

Provides full redundancy for when your broadcast channel goes down. A low cost life insurance policy for your primary product.

Fully secured, hack proof channel management designed to destroy bad actors and keep your station safe.

Channel can serve as a backup that you spin up only when you need it and run from anywhere in the world.
